PREMIUM GRADE VENTILATION PRODUCTS

Premium Chimney Caps

Available in Sizes 4"-24"

Copper, Stainless, Galvanized & Aluminum

Our Premium Grade Chimney Caps are designed to install directly on Single Wall Chimney Pipe, or with the use of our adaptors, can be installed on Double or Triple Wall Pipe, Square Clay or Masonry Chimneys.

Rain Cap Vents

Also called Shanty Caps or Cone Top Vents, these chimney caps may be used as all weather caps to prevent snow and rain from entering the chimney. An optional spark arresting screen is available.

Uses: Fossil Fuel Chimneys & Exhaust Vents for Fans & Passive Ventilation

Vacuum Cap Vents

Also called Artis Caps, these vacuum chimney caps are used for fossil fuel chimneys and are designed to prevent downdraft and/or poor air draws that can be created by wind. This classic design creates a vacuuming effect at its base that pulls air and fumes out of your chimney. An optional spark arresting screen is available.

Uses: Fossil Fuel Chimneys

Wind Directional Caps

Excellent high quality Chimney Cap used to provide maximum draft while preventing downdraft in high wind environments, thus maximizing the efficiency of your stove. This proven design pivots with the wind to keep rain and wind from entering your chimney and compromising the stove draft. An optional spark arresting screen is available.

Uses: Chimney Cap & Furnace Cap or Other Ventilation
