What Makes a Luxury Metals Vent a Green Building Product?

- Copper and Stainless Steel are Valuable Building Materials that are 100% Recyclable
- No VOC's! Copper & Stainless Steel Vents are Lifetime Vents that Do Not Require Paint
- Durability. Our Heavy Gauge Vents will Resist Damage and Last Indefinitely
- Made in the United States. Our Vents Do Not Originate or Ship From Overseas
- Wind Defender Vents Prevent Energy Loss and Save Money. [Click Here For Info](#)
- Turbine Ventilators Use Wind Powered Ventilation and Save Energy. [Click Here](#)
- Fresh Air Vents Used for Natural Ventilation and Heat Recovery Ventilation - HRV
