## CLOTHES DRYER VENT CAPS

### Key Product Specifications

Durable 26 Gauge Metal

Standard Pipe Length is 5" for Copper and 8.5" for Stainless and Galvanized

Low Profile Hood Proven to be Wind and Rain Proof

### Product Options

Materials:

Copper, Stainless or Galvanized

Vent Cover:

With Damper Only. Optional Spring Loaded Damper

### Pipe/Throat Sizes

Copper: 3", 4", 5", 6", 7", 8", 10"

Stainless: 3", 4", 5", 6", 7", 8", 10", 12"

Galvanized: 3", 4", 5", 6", 7", 8", 10", 12"

## DAMPERED ROOF MOUNT EXHAUST VENT CAPS

### Key Product Specifications

For Use as Dryer Exhaust, Kitchen Hood Exhaust,

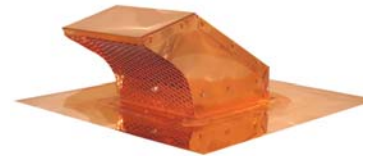

Bathroom Exhaust & Other Indoor Ventilation Exhaust

Termination Damper Installed to Prevent Downdraft

¼ Inch Metal Screen Standard to Prevent Pests

Made of Heavy-Duty 26 Gauge Metal

For Use on Pitched Roofs Only

### Product Options

Materials:

Copper or Black Powder Coated Galvanized

Vent Cover:

With Damper and Screen

### Available Sizes

Copper: 4", 6" & 8" Round Connection

Galvanized 4", 6", 7" & 8" Round Connection

Black Powder Coated: 4" Round Connect & 6" x 10" & 10" x 10" Square Connect

## ROOF/BATH/ATTIC VENT CAPS

### Key Product Specifications

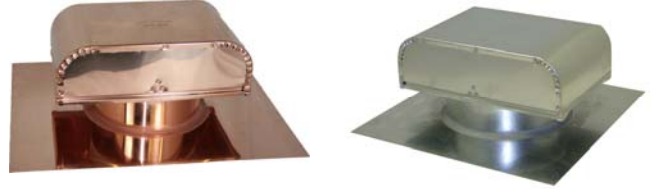

Uses: Ventilate Attic or Exhaust Kitchen, Bath or Other Fans

¼ Inch Metal Screen Standard to Prevent Pests

Made of Heavy-Duty 26 Gauge Metal

Most kitchen appliances and household fans are now equipped with a built-in damper. This allows the roof vent to be open and provide free air flow when the internal damper is open

3" and 4" size have crimped corners

### Product Options

Materials: Copper, Stainless or Galvanized

Vent Cover: With Screen Only

### Pipe/Throat Sizes

Copper: 3", 4", 6", 8", 10"

Stainless: 3", 4", 6", 8", 10"

Galvanized: 3", 4", 6", 8", 10", 12"

### Need a Damper?

In-Line Butterfly Dampers Available

## EAVE/SOFFIT VENTS

### Key Product Specifications

Uses: Bath Exhaust Termination, Passive Soffit or Eave Vent, Air Intake, Kitchen Exhaust

High Quality 16 oz. Copper and 26 Gauge Galvanized

Aesthetically Pleasing Look/Special Attention to Detail

Heavy ¼ Inch Mesh Screen

### Product Options

Materials: Copper or Galvanized

Vent Cover: With Screen Only

### Available Sizes

Copper: 4", 6" & 8"

Galvanized: 4", 6" & 8"

## PREMIUM CHIMNEY CAP VENTS

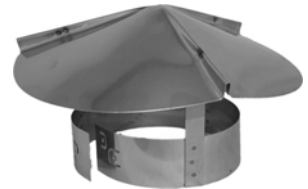

Install our heavy-duty chimney caps directly on Single Wall Chimney Pipe  
Or use our Chimney Adaptors for Double and Triple Wall Pipe as well as  
Square Clay or Masonry Chimneys

## SHANTY CAPS/RAIN CAPS

### Key Product Specifications

Used as an all weather cap to protect snow and rain from entering your chimney pipe  
Applications for this product include: Fossil Fuel Chimneys, Air Exhaust Vents for Fans and Passive Ventilation  
This cap will fit over the outside diameter of your chimney pipe and can be secured by a draw bolt that is included

### Product Options

Materials: Copper, Stainless or Galvanized  
Vent Cover: Optional Spark Arrestor Screen

### Available Sizes

Copper: 4", 6", 8" 10", 12"  
Stainless: 4", 6", 8" 10", 12"  
Galvanized: 4", 6", 8" 10", 12"  
*\*Additional Sizes Available. Please Inquire*

## VACUUM CAP VENTS

### Key Product Specifications

Also called Artis Caps, these vacuum chimney caps are used for fossil fuel chimneys and  
are designed to prevent downdraft and/or poor air draws that can be created by wind.  
This classic design creates a vacuuming effect at its base that pulls air and fumes out of your chimney.

### Product Options

Materials: Stainless or Galvanized  
Vent Cover: Optional Spark Arrestor Screen

### Available Sizes

Stainless: 4", 6", 8" 10", 12"  
Galvanized: 4", 6", 8" 10", 12"  
*\*Additional Sizes Available. Please Inquire*  
*\*Square Tile Chimney Bases Available. Please Inquire*

## WIND DIRECTIONAL CAPS

### Key Product Specifications

The Wind Directional Cap is an excellent high quality cap used to provide maximum draft, while preventing downdraft in high wind environments. This proven chimney cap technology pivots with the wind to keep rain, snow and wind from entering your chimney and affecting the draft of your stove, fireplace or furnace. This product can be used as a chimney cap, furnace cap or for other building ventilation.

### Product Options

Materials: Stainless or Galvanized  
Vent Cover: Optional Spark Arrestor Screen

Available Sizes      Stainless:      4", 5" 6", 7" 8" 9" 10", 12"  
                                 Galvanized:      4", 5" 6", 7" 8" 9" 10", 12"

## CHIMNEY CAP ADAPTORS

### Key Product Specifications

Square to Round Adaptors (Tile Adaptors)  
    ✓ *Product Fits Over Masonry Chimneys*  
Insulated Double and Triple Wall Adaptors (Pipe Adaptors)  
    ✓ *Product Slides into Double or Triple Wall Pipe*

### Product Options

Materials: Stainless or Galvanized

Available Sizes      Stainless:      8" x 8"  
                                 &                    8" x 12"  
                                 Galvanized:      12" x 12"  
                                                    12" x 16"  
                                                    16" x 16"

## TURBINE VENTILATORS

### Key Product Specifications

The Turbine Ventilator provides Wind Powered Ventilation, Reduces Energy Costs and Provides Constant Ventilation. It provides ventilation when the wind is blowing or when there is no wind. This maintenance free system creates a lower coefficient of friction, allowing for easier rotation of the turbine which increases efficiency and eliminates noise.

- ✓ Active and Passive Removal of Air
- ✓ Attic Ventilation for Homes
- ✓ Roof Exhaust
- ✓ Commercial Grade Ventilation
- ✓ Self Lubricating System Prevents Noise
- ✓ Heavy Gauge Metal
- ✓ Internal Bracing System

### Product Options

Materials: Aluminum or Galvanized  
 Style: Internal or External Bracing  
 Roof Bases: Flat Base, Saddle Base, Pitched Base & Adjustable Base:

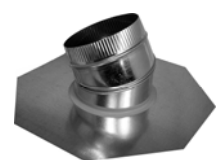

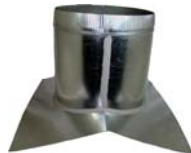

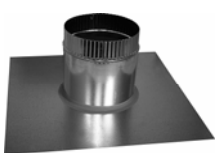

### Available Turbine Sizes

Aluminum: 6", 8", 10", 12", 14", 16", 18"

Galvanized: 6", 8", 10", 12", 14", 16", 18"

Flat, Saddle, Pitched & Adjustable Bases Available in the Same Sizes

*\*Larger Sizes Available. Please Inquire*
