

CONE TOP/RAIN CHIMNEY CAP

Copper, Stainless & Galvanized – Sizes 3” – 16”

All Purpose Chimney, Exhaust, Vent Cap

Also called Shanty Caps, these chimney caps may be used as an all weather cap to prevent snow and rain from entering your chimney pipe. Applications for these chimney caps include fossil fuel chimneys, air exhaust vents for fans and passive ventilation. Available with or without spark arresting screen. The sizes below are designed to fit on the outside diameter of your chimney pipe and are secured by a draw bolt that is included. If installing in double or triple wall pipe see adapters below.

- Use for Chimney or Building Exhaust
- Constructed with Thick-Gauge Metal
- Raised rib design for added strength
- No seams in cap to leak
- Drawbolt collar for easy installation and secure fit
- Heavy gauge galvanized or stainless steel construction
- **Materials: Copper, Stainless or Galvanized**
